T6-UNI	6×30
T8-UNI	8×40
T10-UNI	10×50

1 Special interior space for best seat of the bolt.

2 The ears sit fast in all – even soft – materials and prevent turning of the plug.

3 The tothing behind the head ensures safe fixation in any material.

4 The expansion part enhances the fixation in the hollow areas of the material.

5 The opening in four directions makes the plug adapted to walls of any material.

6 The reinforced tip of the plug ensures proper position of the bolt at installation.
